GARDEN EXPLORERS · AGES 6–7

Patty's Pumpkin Lab

Parent card · watch, talk, do

Watch together

- Let your child answer each quiz question out loud before the answer appears. Then ask: why do you think so?

Experiment: sink or float?

- With a grown-up, fill a bowl with water. Guess first, then test. Write or draw what happened.

Item	My guess	What happened
Orange	sink / float	sink / float
Carrot	sink / float	sink / float
Spoon	sink / float	sink / float
My idea: _____	sink / float	sink / float

Challenge: count in tens

- Use 30 dry beans or pasta shapes. Make groups of ten and count: 10, 20, 30. Try 40 or 50 next!

In your family profile

- Project done: sink or float (tick when done)
- Something that surprised me: _____
- Garden game code from the video: PATTY

Grown-up tip

- Stay close when children play with water. Keep small seeds and beans away from younger siblings.
- Ask your child to explain the experiment to you.
